Carpet Repair and Reinstallation Technician (RRT)

July 25-26 2017 8-5 both days

The Carpet Repair and Reinstallation Technician course teaches techniques and safety issues related to carpet repair and re-installation, carpet construction, inspection process prior to cleaning, tools of the trade, floor preparation, adhesives, carpet cushion installation, tackless strip and moldings, seaming, and proper stretching. This class also teaches various repairs that the carpet cleaner/restorer may come up against while dealing with an installed textile. This knowledge will enable the technician to recognize and avoid installation problems that may arise while performing carpet cleaning as well as how to correct many issues encountered. (2day course; 16 hours, not including lunch and breaks, exam time is included)
