The Introduction to Substrate and Subfloor Inspection course is an introductory, prerequisite course created to teach a basic understanding of substrates and subfloors as they relate to finish floor coverings. This course was developed for individuals engaged in inspecting, installing, creating and/or interpreting specifications, and for other related professions. Emphasis is placed on teaching participants an overview of substrates and subfloors.

08/10/2016 – 08/11/2016
